The notion that the struggle between the elites and the people has become an act of politics in the world's liberal democracies is considered new by conventional wisdom and most experts. There has been much in the media about this, but the reality is much deeper.

The problem is that President Macron has failed to solidify the support he received during his campaign. His policies have been met with resistance from the French population by pushing forward bills that seek to benefit the rich and hurt the middle class. As a result, the wealthy and the middle class have begun to question the government's policies and its ability to deliver on its promises.
